The FED Panel stated that the contract was owned by CSD, all negotiations were done by them, and that there were different updates and sets of license issued throughout the year.

The PPC deferred this application due to the Format of the Business Case, the value for money, as it relates to the Procurement Act, was being satisfied, no joint statement was produced from the entities involved, and also no detailed or alternative pricing was presented.

The FED panel was encouraged to rectify the application and resubmit the project.
